THUS ARE WE INSULTED

Our Flag Hauled Down and Our Subjects Imprisoned.

Stories of Outrages Perpetrated by the Mexican Authorities on the United States Schooner Rebecca at Tampico.

GALVESTON, Tex., May 7.—Captain DuJalay of the American schooner Rebecca, of Galveston, in a communication to the News relates the story of outrages and imprisonment at the hands of the Mexican authorities at port Tampico, February 17, last. The schooner in distress and looking for aid at Tampico, carrying regular clearance papers from Brazos, Tex., for Tampico, but had thirty packages of merchandise for delivery at Brazos, Tex., which port she was compelled to pass on account of the rough weather and dangerous bar. The Collector at Tampico forcibly took the thirty packages consigned to Brazos, and ordered the immediate discharge of the cargo. Captain DuJalay was arrested on the charge of an attempt to smuggle and confined under guard, but was released the next day at the solicitation of the American Minister and Consul. The Judge before whom DuJalay was tried, indignantly refused to allow the American Consul to be present to consult with the prisoner during the trial. After a trial lasting over forty days, the Judge decided that the goods must pay tribute duty, DuJalay protesting that he had no money. On April 15 the Mexican authorities boarded the schooner, hauled down the American flag and embargoed the vessel. DuJalay appealed to the American Consul, who placed the crew in a hotel. DuJalay, after a short stay returned to the United States, leaving the crew with the Consul and the vessel in the hands of the Mexicans. He thinks but for the efforts of Minister Morgan and Cassini that he would be still confined in a Mexican prison.

MEXICAN OUTRAGES.

Shooting Officials and Wrecking Trains for Politics.

EL PASO, Tex., May 7.—On the evening of the 30th ult., D. Mackenzie, General Superintendent of the Mexican Central Road, was shot at by a Mexican while sitting on the rail of his car on the lower part of the road. The ball only missed him by a few inches. The men stopped the train and caught the fellow, who said he did not know whom he had shot at, but just took a notion to shoot something. He was lodged in jail where he lies awaiting trial. Last week an attempt was made to wreck the pay train below Zacatecas, but the express being late, a construction train was wrecked. The funds took up a rail in the middle of a bridge and a terrible wreck occurred. Two men were killed outright and fifteen wounded. Four of the latter have died, and the others are not expected to live. It is thought strange that, although many Mexicans were on the train, all the killed and wounded were Americans except one Mexican who had his hand skinned. These are facts not denied by railway officials at El Paso del Norte, but it is hard to get full particulars.

Saturday afternoon the directors went down the road in a special train, accompanied by Eastern capitalists. The officials advertised that they would start through on the 14th, but on the night of the 13d yesterday it was reported that the special train was wrecked on Sunday night and five persons killed; also that D. B. Hobson, General manager, was assassinated. The railway officials say there is no foundation for the report. The General Government of Mexico, has, however, issued orders to "Jefe Politicos" of all places along the road to take precautionary measures to prevent malicious work.

COAL TRADE CLOSED.

Eight Thousand Miners to be Thrown Out of Employment.

PITTSBURGH, Pa., May 7.—This week will probably close up the coal trade of the Monongahela River. Joseph Walton & Co.'s mines, second pool, will shut down tomorrow, and the works of O'Neil & Co., which have been idle for several weeks on account of a reduction being offered the miners, will not resume until the fall trade opens.

Miners of the fourth pool are still on a strike, and the operators are making up effort toward a settlement. In consequence of the general stoppage of townships to be held up in a few days and the crews discharged, over eight thousand miners will be thrown out of employment.

DESTRUCTIVE HAILFALL IN THE WEST. LITTLE ROCK, Ark., May 7.—A terrible hail and rain storm visited this city yesterday afternoon, hailstones as large as walnuts falling. Within the space of fifteen minutes water an inch deep covered some of the principal streets from curb to curb. Reports from above say that all the rivers and streams are bank full and an overflow is imminent. The Arkansas River at this point is within one foot of the highest water mark during the year. The last week a steady rainfall has created considerable uneasiness among the planters in the Arkansas Valley. The destruction to crops by hail has already been great, and should the rainfall continue much longer, an overflow equal to that of February is predicted.
